ABOUT ME

I am Abubakar Rasheed, and I am currently working as a Front end developer at CODELOUNGE. I have a passion for building web applications and a strong foundation in the FRONTEND (React) which allows me to create dynamic and responsive web solutions.

My journey in the world of software development started with a fascination for technology and a desire to create meaningful and innovative applications. Over the six month, I have honed my skills in front-end development, and I enjoy solving complex problems through clean and efficient code.

At CODELOUNGE, I have had the opportunity to work on a variety of projects, collaborating with a talented team to deliver cutting-edge solutions for our clients. I thrive in dynamic and fast-paced environments, and I am always eager to learn and adapt to the latest industry trends and technologies.

As a FRONT END developer, I take pride in developing user-friendly and performant web applications, ensuring a seamless user experience. I am dedicated to writing well-structured code, implementing best practices, and delivering high-quality software products that meet and exceed our clients' expectations.

I am excited to be part of the CODELOUNGE team, and I look forward to contributing my expertise to our projects and helping the company achieve its goals.

WORK EXPERIENCE

15/05/2022 – 17/08/2022 Qasba Gujrat, Pakistan
IT SUPPORT OFFICER PARCO

As an IT Support Officer, I provide frontline technical support for hardware and software issues, ensuring efficient resolution of user requests and problems. I maintain system reliability through routine checks and troubleshooting, install and configure software and hardware, and manage IT inventory. I prioritize effective communication, customer service, and collaboration to enhance user productivity and reduce downtime. My role is pivotal in maintaining the organization's IT infrastructure, ensuring security compliance, and contributing to continuous improvement in IT services

17/10/2023 – 18/04/2024 lahore, Pakistan
IT SUPPORT OFFICER EVERCARE HOSPITAL LAHORE

Technical Assistance: Provide frontline technical support for hardware and software issues, ensuring that all user requests and problems are resolved efficiently and effectively.
System Maintenance: Perform routine system checks and maintenance to ensure the optimal functioning of the organization's IT infrastructure.
Troubleshooting: Diagnose and resolve technical problems, including hardware malfunctions, software errors, and network connectivity issues.
User Training: Educate users on the proper use of IT equipment and software applications to enhance productivity and reduce technology-related frustrations.
Documentation: Maintain accurate records of IT support requests, solutions, and outcomes, helping to build a comprehensive knowledge base for future reference.
Software Installation: Install and configure software and operating systems, ensuring compatibility and adherence to organizational standards.
Hardware Management: Manage the inventory of IT equipment, including the setup and decommissioning of hardware as needed.
Security Compliance: Assist in implementing and maintaining IT security protocols, including data protection and access control measures.

Continuous Improvement: Stay informed about the latest technology trends and best practices in IT support, contributing to the continuous improvement of IT services within the organization.
